

On behalf of the University of Haifa students we would like to express our profound appreciation for the wonderful seminar you organized for us as part of the European Union 'Youth in Action' seminar.

We appreciate all of your efforts to arrange an amazing visit for us and we thank you so much for showing us your beautiful city and your university. You kept us busy with a rich and unique schedule, which included many lectures about the EU, visits to the parliament and the city council, meetings with interesting politicians, many tours around the city with a great tour guide and even delicious dinners.

The seminar enabled us not only to learn about the EU and the culture and history of Poland, but also experience Warsaw in a way we will not forget it.

Thank you for everything,

The Israeli Delegation
